Subject: SOC 2 Bridge Letter

At Mesh Intelligent Technologies, Inc., protecting your data and upholding best-in-class security standards is at the core of what we do. We understand how critical it is to maintain a strong internal control environment and to provide independent verification of our systems' effectiveness through our SOC 2 reports. We also recognize our responsibility to disclose any material changes to our controls between audit cycles.

Our most recent SOC 2 Type II report, conducted by Johanson Group, covered the period from July 01, 2023 to September 30, 2023. We value the trust you place in us, and we know how important SOC 2 compliance is — which is why we are actively in the process of attaining our next SOC 2 Type II report.

This letter confirms that, to the best of our knowledge and based on our records, Mesh Intelligent Technologies, Inc. has made no changes to its internal controls since our last report. Think of this as a “bridge” between our last audit and the one currently in progress. Our next SOC 2 Type II audit is scheduled to be delivered on Sep 30, 2025, and we'll be happy to share it as soon as it's complete.

Please note, this letter is not a substitute for the SOC 2 Type II report itself, nor is it a certification of compliance. It is intended to provide interim assurance between audit periods.

If you have any questions or would like to review our SOC 2 report, please contact us at support@pieces.app.

Sincerely,

Tsavo Knott
CEO
Pieces (Mesh Intelligent Technologies, Inc)
